PROFILE

I am Junior Machine Learning Engineer, mainly enthusiastic in development especially associated with fields of A.I. Being able to prove willingness to take on any task to support the project team and help the team progress. Offer strong coding skills and confidence to overcome strict deadlines.

EXPERIENCE

INGO

May 2019 - Fed 2020

PART-TIME OFFICE STAFF

Worked as part-time office staff in INGO Finance Department.

OMDENA

Apr 2022 - Present

JUNIOR MACHINE LEARNING ENGINEER, VOLUNTEER

I've only worked on a project which main object is using AI to monitor trees during reforestation process. The project required us to work with both satellite and drone images.

EDUCATION

SEAMEO

Dec 2017 - Fed 2019

DIPLOMA IN ENGLISH

English courses at Southeast Asian Ministers of Education Organization.

UNIVERSITY OF YANGON

Dec 2014 - Dec 2019

BACHELOR'S DEGREE IN GEOLOGY

I've learnt all basics about geology such as tectonics, petrology, mineralogy, gemology and environmental science, etc throughout semesters.

UNIVERSITY OF INFORMATION TECHNOLOGY

Fed 2019 - Present

BACHELOR'S DEGREE IN COMPUTER SCIENCE

Finding out the real passion is pretty late in my case. That lead me to the computer science and its infamous sub-branch, Artificial Intelligence.

COURSES

COURSEA

July 2020 - Present

APPLIED DATA SCIENCE WITH PYTHON

Specialization issued at Coursea.

PYTHON 3 PROGRAMMING

Specialization issued at Coursea.

DEEP LEARNING

Specialization issued at Coursea.
